Electric Vehicle Sales

1.**Total Vehicles Sold over the years**

The sales are significantly increasing from 2021 to 2023 ,in 2023 the sales are peak .so that Electric vehicle sales are increasing over the years . possible reasons such as Government offering subcidies and Low maintanance cost on Electric vehicle

2.**Monthly vehicle sales**

Sales are peak in the months of October ,November and December and Down in January ,February ,April and June months. it may happen because festival or occasional ,seasonal sales

Recommended : Offer discounts and promotions in the low-sales months.

3.**Total Sold based on Vehicles Category**

The total market sales based on 2w and 3w vehicles. These two categories share 57% and 38% of the market respectively .These two categories of vehicles covers 95 % of Electric vehicle sales and plays key role in sales performance

Recommended: Focus on vehicle requirement and concentrate on customer satisfaction

4.**Top 5 States and Bottom 5 States by vehicle sales and vehicle Category**

Uttar Pradesh : Highest sales among all states ,driven mainly by 3 W Vehicle category. Its 3W sales exceeds the combined 3W sales of the other top 4 states, that means this state significantly contribute 3w sales share

Recommended: Focus on 2W sales in the uttar pradesh and 4W sales in all the top 5 states and maintain sufficient 3W stock in the uttar pradesh

Sikkim: No sales recorded ,No participation in any vehicle category

Recommended: Focus the cause of no sales in sikkim and other 4 states , provide discount and special offer on vehicles

5.**Monthly sales by vehicle category**

2W and 3W vehicle categories are contributing largest share in vehicle sales performance rather 4w ,buses and other are at bottom level

Recommended : Focus on bottom vehicle category , Provide special offers and Investigate demand in the low-selling categories
